

# Arbutus Garden Arts Plant Availability

December, 2022

Please contact us by email at [arbutusnursery@gmail.com](mailto:arbutusnursery@gmail.com) and we will reply with an up to date availability. In recent seasons, we have found this method of communicating with customers to be much more effective than posting availability on our website that is obsolete almost as soon as it appears. We specialize in Japanese maples (120 varieties), dwarf conifers (145 varieties), Epimedium (90 varieties including our own introductions), and a few other species' cultivars which strike our fancy

For orders requiring shipping, we will reply to email requests with a tentative invoice including shipping cost, and will hold plants for two weeks pending confirmation of a shipping date. We limit shipping to autumn and spring seasons in order to reduce plant stress.

We generally ship via USPS Priority Mail on Mondays following receipt of payment by snail-mail check or money order.
